Executive Summary

Introduction – At the December 15, 2015 regular meeting, the City Council voted unanimously to introduce the ordinance amending chapter 20 of the City of Sterling Heights Code of Ordinances by enacting local amendments to the International Fire Code to implement new requirements for rapid entry systems in commercial buildings. The ordinance is back before the City Council for adoption.

Background – A rapid entry system is a secure emergency access program developed for property owners and fire departments. When a fire breaks out, or any other emergency arises, a rapid entry system allows firefighters and paramedics immediate entry into buildings and property without forced entry damage or delay. Property owners store keys, access cards, gate keys, etc. in high security boxes mounted near building entrances. Each box purchased by a property owner is keyed to a master key controlled by the Fire Department.

When an emergency occurs, a rapid entry system allows the Fire Department to spend less time and fewer resources gaining access to the building. This faster access will result in a more rapid control of the emergency situation. This could mean faster fire control or more rapid shut off of a sprinkler system, resulting in less water damage. In addition, a rapid entry system allows Fire Department access without damage to the building. Without this system, the Fire Department would need to gain access by forcible entry, which generally results in damage to doors or windows and their associated facings. After forcible entry, it is generally difficult to secure a building again after the emergency has been controlled. The cost of repairs made after a single forcible entry will likely be higher than the cost to purchase and install the box.

Many of the rapid entry key boxes being used throughout the City are old, deteriorating, and/or not maintained. To ensure uniformity and consistency in replacing existing boxes, the Sterling Heights Fire Department has chosen Knox to be the sole source for rapid entry key boxes throughout the City. The "Knox

Box[®] is the preferred rapid entry key box throughout the country, and it is currently the type of box required and used in Clinton Township, a close mutual aid partner of the City of Sterling Heights.

Requiring one type of key box will eliminate the need for the Fire Department to maintain more than one master access key. Instead, each emergency apparatus of the Fire Department will simply have a Knox Master Key Retention Device, and the key to a Knox Box can only be released when a firefighter activates an individual Personal Identification Number to release the Master Key. The apparatus will retain a recorded encrypted log of who removed the key and what time it was removed and replaced. The Knox Master Key Retention device will activate a blue strobe light, which will flash until the master key has been placed back in the retention device. This will make sure that the key is replaced prior to the movement of the vehicle. This system allows the maximum security available for these master keys.

Other companies make similar products, but any system adopted by a fire department must be compatible from one installation to another. Only one master key will be carried on the fire apparatus. This key must operate all lock boxes in the City. To maintain master key security, all companies in this business carefully guard the master key codes. They will not release this information to any other manufacturer or supplier. These security concerns require that one supplier be selected for all installations in the City. The Knox Company was selected for several reasons. Its system has proven reliable in thousands of cities across the nation. It has a variety of products that meet rapid entry and access needs. However, the primary reason the Knox Company was selected for the Sterling Heights Fire Department was key security. No other company makes a product similar to the Knox Master Key Retention system.

The Fire Department and the City will have absolutely no financial interest in the sales of the Knox Company. The only purpose in requiring the Knox system is to improve Fire Department Access in emergency situations and to reduce property damage caused by forcible entry. Currently, the cost of a Knox Box is about \$300. This product is adequate for most key only installations, but the Knox Company has many other products to choose from.

Ordinance – The proposed ordinance would amend the key box provisions of the International Fire Code to require that every commercial building and every locked gate or driveway allowing access to a commercial building or business, if it already has a key box, must now have a Knox Box[®] type rapid entry key box. The Fire Marshal may also designate additional buildings that must install the box, and if a building is ever subject to forcible entry by emergency responders, it must thereafter also install and maintain the box. Other properties may also participate in the Knox Box[®] program, and in fact will be encouraged to do so.

The Fire Marshal must be notified when locks or keys will be changed so that proper keys for the box are provided to the Fire Department for inclusion in the box. The ordinance will require the key box to contain: a key that allows access; labeled keys to locked points of egress, to locked mechanical and electrical rooms, to locked elevator rooms and controls, to any fence or secured areas, to areas where fire alarm panels and fire protection systems are located, and to any other areas required by the Fire Marshal; a card containing emergency contact information; floor plans of the rooms in the building showing shut off locations; hazardous materials information; an inventory of the keys inside the key box(es); digital codes for access to any gates or electronic doors; and any other keys, instructions, or information required by SHFD regulations and guidelines.

Key boxes will be registered using applications provided by the Fire Marshal. Registration will be required prior to installation to ensure proper mounting and installation. The box must be installed on the exterior of the building at a location approved by the Fire Marshal. All costs will be the responsibility of the party responsible for the building.

Under the new ordinance, the Fire Marshal may waive the key box requirement if the size of the building or other unusual circumstances render it ineffective, or if the building houses a business that stores or handles potentially hazardous or expensive, rare, or unique materials. Businesses that are legally required to maintain customer confidentiality may opt out. In addition, any property owner may opt out of the key box requirement if the owner's insurance agent provides a letter of understanding acknowledging that the City is not authorized to obtain access through a lock box key, and that damage resulting from force entry and/or delay may occur. The owner must also execute a hold harmless agreement in favor of the City and all neighboring fire departments.

The ordinance would give existing buildings more than one year, until February 1, 2017, to install the new Knox Box. Buildings currently under construction must install the Knox Box within 90 days of adoption of the ordinance or prior to issuance of a certificate of occupancy, whichever time period is longer. The Fire Marshal will be required to provide notice to all affected properties at least 90 days before compliance is required.

The ordinance will require the Fire Department to create guidelines and regulations governing placement, approval, keeping, and use of key boxes and keys, as well as Knox Box access.

Property owners do not receive keys that will open their own Knox Box. Any key that will open one Knox Box will also open other Knox Boxes in the City. For that reason, only the Fire Department has the master key. When a box is mounted and the owner is ready to install keys, the owner will call the Fire Department, and an officer from the Fire department will come and place the keys securely in the box.

The ordinance will not apply to owner-occupied one and two family dwellings, although such dwellings may voluntarily participate.

Violations of the ordinance requirements will be classified as municipal civil infractions. The "responsible party" under the ordinance will be the property owner of a building that is subject to the requirements of the ordinance. If the owner is a corporate entity, the code official may determine that the property manager, business manager, or other individual responsible for the daily and legal operations of the business or enterprise on the property is the "responsible party" under the ordinance.

RESOLVED, to adopt the ordinance to amend chapter 20 of the City of Sterling Heights Code of Ordinances by enacting local amendments to the International Fire Code to implement new requirements for rapid entry systems in commercial buildings.

CITY OF STERLING HEIGHTS

MACOMB COUNTY, MICHIGAN

ORDINANCE NO. _____

AN ORDINANCE TO AMEND CHAPTER 20 OF THE CITY CODE BY ENACTING LOCAL AMENDMENTS TO THE INTERNATIONAL FIRE CODE TO IMPLEMENT NEW REQUIREMENTS FOR RAPID ENTRY SYSTEMS IN COMMERCIAL BUILDINGS

WHEREAS, many buildings within the City are equipped with automatic systems that may cause the Sterling Heights Fire Department to be summoned at a time of emergency when the building or business is not occupied or when the occupant is not available to provide the Sterling Heights Fire Department entry into the building; and

WHEREAS, the health, safety, and welfare of the citizens of Sterling Heights are promoted by requiring a building equipped with automatic systems to have a key box emergency access system installed on the exterior of the structure to provide the Sterling Heights Fire Department rapid entry into the building during a time of emergency; and

WHEREAS, the key box emergency access system will eliminate costly damage from forcible entry into buildings equipped with automatic systems by the Sterling Heights Fire Department checking for fire or other dangerous conditions; and

WHEREAS, the Sterling Heights Fire Department can reduce the potential for rapid extension of fire and other hazardous conditions by quick access and decreasing dangers for firefighters; and

WHEREAS, a mandatory key box rapid entry system is authorized by Section 506 of the International Fire Code, which has been adopted by the City, and the key box rapid entry system will operate on a controlled master key basis by the Sterling Heights Fire Department; and

WHEREAS, the Sterling Heights Fire Department has studied various key box options and recommends the only one brand of key box rapid entry system, known as “Knox Box®,” which has been determined to be the most widely used, the most durable, and the most consistent with systems accessed by the City’s neighboring mutual aid partners; and

WHEREAS, the City desires to ensure that existing and aging key box systems throughout the City are replaced with uniform key boxes of the same type and for which only one master key is required to be maintained on emergency apparatus, and to specify the uniform key box required for that purpose so that existing properties without key boxes may also be encouraged to voluntarily participate.

NOW, THEREFORE, THE CITY OF STERLING HEIGHTS ORDAINS:

SECTION 1. Section 20-23 of the City Code shall be amended to add new local amendments to the existing provisions of the International Fire Code, to be inserted in numerical order and to read as follows:

Section 506 shall be replaced and shall read as follows:

**SECTION 506
RAPID ENTRY SYSTEMS**

506.1 Required. All buildings and locations within the City that are currently equipped with a rapid entry key box shall be required to replace the key box if it is not the Knox Box® type and size approved by the code official in accordance with UL 1037 as the exclusive key box system to be utilized throughout the City. Commercial buildings not currently equipped with a rapid entry key box, including properties with a locked gate or driveway which allows access to a commercial building or business, shall install an approved key box within 90 days of any forced entry emergency response by the Fire Department into such building or through such gate or driveway, or within 90 days of finished reconstruction in the event that the building was so severely damaged as to not be able to install a key box sooner. In addition, and in the sole discretion of the Fire Marshal, a rapid entry key box shall be required in any building where lack of access may result in loss of life and/or large property or environmental damage, based on factors including, but not limited to, fire load, occupant load, exposures, building construction, age of building, and storage or use of hazardous materials.

506.2 Maintenance. The responsible party shall immediately notify the code official when any or all of the locks or keys have been changed and shall keep the immediate area of the key box free and clear of any and all obstructions. The responsible party shall provide the proper keys for the key box to the Fire Department and shall not have access to a key that can open the key box.

506.3 Requirements. The responsible party is required at all times to keep a key(s) in the key box that will allow access to, and/or into, the structure. The key box shall contain, but not be limited to, the following items as designated by the code official:

- a. Labeled keys to locked points of egress, whether in interior or exterior of the building;
- b. Labeled keys to the locked mechanical and electrical rooms;
- c. Labeled keys to locked elevator rooms and controls;
- d. Labeled keys to any fence or secured areas;
- e. Labeled keys to areas of the building where fire alarm panels and fire protection systems are located;
- f. Labeled keys to any other areas as required by the code official;
- g. A card containing the emergency contact people and phone numbers for the building;
- h. Floor plans of the rooms within the building showing locations of shut offs;
- i. Hazardous materials information;

- j. An inventory of the keys inside all key boxes;
- k. Digital codes for access to any gates or any electronic door locks within the building;
- l. Any other keys, instructions, and/or information required by the Fire Department's administrative regulations and guidelines.

506.4 Registration and installation. The responsible party shall apply for a registration for a key box on forms provided by and obtained from the code official. A registration is required prior to the installation of a key box in order to verify the proper mounting location and installation of the key box. The key box shall be installed on the exterior of the building at a location and in a manner approved by the code official. No key box shall be installed, voluntarily or otherwise, without first obtaining the approval of the code official. The responsible party shall be responsible for the cost to purchase, install, and maintain the key box.

506.4.1 Waiver. The requirement for a key box may be waived by the code official if, in the opinion of the code official, the size of the building or other unusual circumstances render the key box ineffective for its intended purpose, or if the building houses a business, firm, or other entity that provides sensitive personal services or routinely stores or handles potentially hazardous or expensive, rare, or unique materials. Businesses, firms, or other entities that are legally required to maintain customer, client, trade, or patient confidentiality may opt out of the key box requirement.

506.4.2 Opt out. Any property owner not otherwise exempt may opt out of the key box program if such owner or owner's authorized insurance agent furnishes the code official with a letter of understanding from the insurer of the subject premises directed to the City of Sterling Heights and neighboring fire departments acknowledging its understanding that the City and the fire departments are not authorized to obtain access to the premises during an emergency by way of a lock-box key, and that damage resulting from forced emergency entry and/or delayed entry may occur. Additionally all owners of such premises shall execute and deliver to the code official an agreement, in the form and substance required by the City Attorney, holding the City of Sterling Heights and all neighboring fire departments free, harmless, and indemnified from any claim relating in any way to forced emergency entry damage or delayed access.

506.5 Compliance dates. All properties with existing key boxes that are not the type and size approved by the code official shall comply with this section by February 1, 2017. All newly constructed buildings not yet occupied or buildings currently under construction and all buildings or businesses applying for a certificate of occupancy shall comply, if required by the code official to install a key box, within 90 days of the adoption of this Section 506 or prior to issuance of the certificate of occupancy, whichever time period is longer. The cost of purchasing and installing, along with any cost associated with implementation of the program at a specific property, will be borne by the responsible party. The code official shall ensure that written notification is sent to all responsible parties regarding the key box program requirements and the exemptions and opt out conditions at least 90 days before a building is required to be in compliance. Such notice shall be sent by regular mail to the name and address of record in the assessor's office and/or on file as a business registration with the City Clerk.

506.6 Regulations. The Fire Department shall create administrative guidelines and regulations governing placement and approval of key boxes, the keeping and use of Knox Box® keys, and Knox Box® access. Any administrative guidelines and regulations imposing an obligation or duty upon a building, property, and/or responsible party shall have the force and effect of law as if fully set forth in this section 506.

506.7 Definitions. As used in this chapter:

Commercial building. A building protected by an automatic fire suppression and/or standpipe system or protected by an automatic fire alarm system (automatic dialer, central station, external audible/visual alarm), but does not include owner-occupied freestanding residential homes, government buildings, or multi-family apartment buildings with units that have direct outdoor access doors and individual addresses.

Key. Any device that functions as a means to afford access and/or to unlock that which secures or controls entrance to a building, property, or other location, including but not limited to a standard key, an electronic card, or a code.

Knox Box®. A key box known by its brand name, and the type of key box required by the City for uniformity, security, access, and long-term durability.

Responsible party. The property owner of a building or property that is subject to this Section 506. In the event that the owner is a corporate entity, a property manager, business manager, or other individual responsible for the daily and legal operations of the business or enterprise on the property may be cited by the code official as the “responsible party” under this section.

506.8 Applicability. This section shall not apply to owner-occupied one and two family dwellings. However, any dwelling and any building or property may participate on a voluntary basis by purchasing a Knox Box® key box independently or through a discount program arranged with Knox Box® by the Sterling Heights Fire Department.

SECTION 2. All other provisions of the Code of Ordinances not specifically amended shall remain in full force and effect.

SECTION 3. This ordinance shall become effective immediately upon publication of a notice of adoption.

This ordinance was introduced at a _____ meeting of the City Council of the City of Sterling Heights on the _____ day of _____, 2015, and was duly adopted at a _____ meeting of the City Council of the City of Sterling Heights on the _____ day of _____, 2016.

Mayor Michael C. Taylor called the meeting to order at 7:30 p.m.

Mayor Taylor led the Pledge of Allegiance to the Flag and Mark Carufel, City Clerk, gave the Invocation.

Council Members present at roll call: Deanna Koski, Joseph V. Romano, Maria G. Schmidt, Nate Shannon, Doug Skrzyniarz, Michael C. Taylor, Barbara A. Ziarko.

Also Present: Mark Vanderpool, City Manager; Jeffrey Bahorski, City Attorney; Mark Carufel, City Clerk; Madeline L. Ranella, Recording Secretary.

APPROVAL OF AGENDA

Councilwoman Koski requested that Consent Agenda Item A be made Consideration Item 7.

Councilwoman Ziarko requested that Consent Agenda Item G be made Consideration Item 8.

Moved by Koski, seconded by Romano, to approve the Agenda with the changes to Consent Agenda Items A and G.

Yes: All. The motion carried.

REPORT FROM CITY MANAGER

Mr. Vanderpool reported on the Christmas and New Year holiday schedule. He reminded residents there would be no refuse collection on Christmas Day, December 25 and New Year's Day, January 1 and that refuse collections would be delayed one day throughout the week following each holiday.

Mr. Vanderpool stated for the 23rd year, the City is recycling Christmas trees left at the curb by 7 a.m. on resident's normal trash day.

Mr. Vanderpool introduced Ms. Denice Gerstenberg, City Development Director, to give an overview of the new technology and use of QR Codes.

Ms. Gerstenberg used a power point presentation to introduce the latest innovation to streamline the building permit process. She pointed out the focus on customer service and the use of quick response or QR codes.

Mr. Vanderpool thanked Ms. Gerstenberg and her team for making great use of this new technology.

PRESENTATION

Ms. Denice Gerstenberg introduced Mr. Donald Carpenter, Professor at Lawrence Technological University and Ms. Ann Barr, Executive Director from the Clinton River Watershed Council to discuss the WaterTowns report on potential "green" infrastructure projects for the City to consider.

Councilman Romano questioned whether the \$74,000 was part of the grant or the City's share.

Mr. Carpenter responded that is the sum of all the recommended improvements.

Ms. Barr added that it gives the City the opportunity to put money in their capital improvement budget and engineering budget. The City can decide if they want to do all or part of the improvements. Ms. Barr announced they are awarding the City of Sterling Heights a \$5,000 mini-grant.

Councilman Romano questioned whether the other communities received any grant money in addition to the \$5,000 and expressed concern with the \$70,000.

Ms. Barr responded not yet, but there is grant money available for these projects.

Councilman Skrzyniarz thanked both speakers for their work on this report. He inquired the number of gallons of water reduced from going into the Clinton River and questioned the impact on the Clinton River and communities.

Mr. Carpenter responded that if every community is doing their part, it will make a big difference.

Mayor Taylor thanked Ms. Barr for the grant and stated he is looking forward to working with them in the future.

Mr. Mark DiSanto, Recreation Supervisor, presented the Nice Neighbor award to Mrs. Kincaid and her MMSTC students for the unique QR Code technology project they developed for the Nature Center.

ORDINANCE INTRODUCTION

1. Fire Chief Chris Martin made a presentation on a rapid entry system and demonstrated the Knox Box chosen by the Sterling Heights Fire Department for use throughout the City. He pointed out it is the current type of box required and used in Clinton Township,

a close mutual aid partner of the City of Sterling Heights. Chief Martin recommended the introduction of the ordinance amending the key box provisions of the International Fire Code to require every commercial building and every locked gate or driveway to install the new Knox Box type rapid entry key box or at least the basic model.

Mr. Jeffrey Norgrove asked Chief Martin to explain the key control with fire fighters and how it would be used. He also asked the Chief to explain the cost of replacing a business' door after it is broken down vs. the cost of the key box.

Mr. Michael Lombardini spoke in support of the new Knox Boxes and stated it is a safe secure system and a good idea.

Moved by Ziarko, seconded by Schmidt, **RESOLVED**, to introduce an ordinance to amend Chapter 20 of the City of Sterling Heights Code of Ordinances by enacting local amendments to the International Fire Code to implement new requirements for rapid entry systems in commercial buildings.

Councilwoman Ziarko stated by approving this ordinance tonight the system that is being used right now will be obsolete.

Chief Martin responded that is correct. The City is going to, by ordinance, tell everyone we are going to have a dual-key system. We will have an updated system and a key retention system. By February of 2107, everyone, by ordinance, will have the new system.

Councilwoman Ziarko hopes there would be no opposition and appreciates the fact that the Fire Department would be asking for a letter from the business' insurance carrier if the business opts out.

Councilwoman Ziarko believes this is a good idea and appreciates the presentation.

Councilwoman Schmidt inquired whether there was one master key that fits in all the boxes.

Chief Martin responded each fire apparatus would have one master key that would operate all lock boxes in the City.

Councilwoman Schmidt stated if the system we currently use is obsolete and not working, she totally agrees with this ordinance amendment.

Councilman Shannon inquired whether there would be discounts available to the businesses from their insurance carriers.

Councilman Shannon wanted to see the lock boxes advertised for the senior citizens to make sure they were aware of them.

Councilman Skrzyniarz questioned the possibility of discounted prices from Knox Box because of the volume of units that would be purchased from them.

Chief Martin responded the company does not offer discounts.

Councilwoman Koski questioned the actual number of lock boxes the Fire Department would have and the Chief responded there would be 18.

Councilwoman Koski stated in regard to the senior citizens it would be an excellent program for the seniors that live alone. She suggested a flyer explaining the lock boxes be placed with the water bills for each residence.

Councilman Romano suggested the City's legal department draft a letter for the businesses to take to their insurance companies.

Councilman Romano questioned the placement of the boxes on the homes and the security issue.

Mayor Taylor spoke in favor of the rapid entry system and thanked Chief Martin for his presentation.

Vote on motion to introduce the ordinance amendment:

Yes: All. The motion carried.

ORDINANCE ADOPTION

2. Mr. Mike Lombardini asked the City Council to consider raising the budget for the Historical Commission.

Moved by Romano, seconded by Schmidt, **BE IT ORDAINED**, to adopt the first amendment to the Appropriations Ordinance for the 2015/16 fiscal year.

Mayor Taylor suggested Mr. Lombardini present his request to the City Council in writing and include a suggested amount.

8. Item G from the Consent Agenda:

The following residents addressed the purchase of street lighting and mile marker icons with the reconstruction of Van Dyke, from 15 Mile Road to 18 Mile Road.

Mr. Jeffrey Norgrove doesn't see the need for the mile markers and believes it would be very tacky and a waste of money. He hopes the City Administration could take a second look at this expenditure.

Mrs. Sanaa Elias spoke against the mile marker icons, stating they will not fit with the aesthetics in the area, they're too high and too costly. She believes the money could be better spent somewhere else.

Ms. Linda Godfrey expressed her displeasure with the mile marker icons. She questioned various sections of the contract as well.

Mrs. Jazmine Early also believes the money for the mile marker icons could be used elsewhere.

Mr. Charles Jefferson doesn't believe people will even be aware of the mile markers and feels it is a waste of money.

Mr. Jody Horan believes the money could be spent somewhere else as well.

Moved by Ziarko, seconded by Taylor, **RESOLVED**, to:

- A. Purchase benches and trash receptacles from Victor Stanley, Inc, P.O. Drawer 330, Dunkirk MD 20754 and bike racks from CycleSafe Inc., 5211 Cascade Rd. SE, Suite 210, Grand Rapids MI 49546 for installation at twelve SMART Bus Stop locations along Van Dyke at a cumulative cost of \$30,441.39;
- B. Approve an agreement between the City of Sterling Heights and Detroit Edison Company for the purchase and installation of street lighting in the Van Dyke median at a cumulative cost of \$54,740.61 and authorize the Mayor and City Clerk to sign it on behalf of the City; and,
- C. To award the bid for Mile Marker Icons to Signs by Crannie, 4145 Market Place, Flint, MI 48507, at a cumulative cost of \$152,592.80.

Councilwoman Ziarko explained she pulled this item off the Consent Agenda to allow the residents to speak on this issue. The Council has originally approved the cost of this in the 2015/16 budget.

Mr. Vanderpool discussed the visioning statement and guiding principles that were approved along with the statement. He pointed out a landscape architect was utilized to make the Van Dyke corridor a focal point and the idea was not only to improve the roadway, but to make it a focal point. The overall project is \$40 million and the lighting is only 1% of the proposed costs.

Councilwoman Ziarko pointed out a lot of the decisions made at the Council table not only benefit our residents, but the people that drive through Sterling Heights, shop and eat here. These are things that people want when they are bring their businesses into Sterling Heights.

Councilman Romano stated as a point of reference, this is what the mile markers are and they will stand out. The money that has been put into this corridor will make it better.

Councilman Shannon pointed out the research he did on this item to make sure the Council is doing things that can be backed up with information that applies to what they are trying to do. He discussed the study that showed we want the City to be aesthetically pleasing and this City has addressed that issue. He pointed out the emotional issue between residents and the community and the fact that people have a positive attitude about things in the City. Businesses and residents are looking for visual aesthetics to retain residents. Based on his research, Councilman Shannon is in support of this request.

Councilwoman Koski questioned the people responsible for the design of Van Dyke.

Mr. Vanderpool responded that was a large team of professionals involved in this project. There were a number of workshops as well with the businesses.

Councilwoman Koski questioned whether there was a professional consulting or architectural firm that the City worked with.

Mr. Vanderpool responded yes, and they looked at models from across the country.

Councilwoman Koski pointed out the City had expert advice and a lot of input before they came up with this idea of how to make Van Dyke a prime destination point.

Councilman Skrzyniarz pointed out the Van Dyke corridor is made up of businesses and the businesses are taxpayers as well.

Mayor Taylor stated he will support this request as well because it is another idea in a long range overall plan between the City Council and City Administration to make Sterling Heights a unique destination place for residents and people travelling through our community.

Yes: All. The motion carried.

COMMUNICATIONS FROM CITIZENS

Mrs. Jazmine Early - Vision Fair; Creation of a Citizens Commission.

Mr. Jeffrey Norgrove - Master Plan/Parks and Recreation Plan/Non-Motorized Plan; Sterling Christmas; Frisbee course; Lack of bike lanes on Van Dyke.

Mr. Michael Rath - Layoff of police officers and use of G4S.

Mrs. Sanaa Elias - 2030 Vision Fair; Offensive campaign literature.

Ms. Linda Godfrey - Additional dates for Master Plan workshops; Rizzo Environmental Services/transfer station; Storage of vehicles in an M-1 zoning district.

Mr. Charles Jefferson - Warming center.

Mr. Harry Marchlones - Trash hauling contractors.

REPORTS FROM CITY ADMINISTRATION AND CITY COUNCIL

Mark Vanderpool reported on the Master Plan. He stated that the City will continue to have public engagement throughout the Master Plan process. He reported that two public hearings have been held before the Planning Commission, one visioning fair, and other public engagements. Also, on the main page of the City's website is a Master Plan update with much more information. Mr. Vanderpool reported getting great feedback on the Master Plan through the website and at other public engagements. He thanked everyone and stated he is looking forward to much more to come on the Master Plan.

Mr. Bahorski stated there are no items for closed session tonight.

Councilman Skrzyniarz stated that there has been some discussion over the past year and a half that there has been a consistent pattern of borderline disrespectful, abusing the privileges of public comment in these chambers that needs to be addressed to try and restore the business nature of these meetings and restore respect. In reviewing surrounding communities, the time limit for public comment is consistently less. He requested that he would like to add an item to the next agenda decreasing the amount of time allowed for public comment from 7 minutes to 4 minutes.

Councilman Romano reported that some DPW vehicles are being replaced. In 85% of the vehicles, the costs of the repairs are superseding the cost of the vehicles purchased. He added that some of the vehicles are still usable and is recommending consideration be given to maintaining one vehicle on the premises to be used by "COPS" Citizens on Patrol. The volunteer COPS use their own vehicles when volunteering their time. Presently \$250 a year is donated to the COPS program. In addition, Councilman Romano

addressed the handicap facility by the police station. He is requesting the curb be corrected.

In addition, he wished a Happy Birthday to Tony Nader and a Merry Christmas and a Healthy and Happy New Year to all residents.

Councilwoman Ziarko commented that one reason why people don't come to the meetings is because they are happy with what's going on. She added that she attended the Fair on Saturday and that there was a nice presentation, and a lot of good ideas. It is important to continue growth, and it helps your investment. Councilwoman Ziarko addressed the political flyer. The St. Blaise Warming Center will be sometime in January, 2016. She stated that City Council makes the best decisions they can with the information provided, being as transparent as possible.

Councilman Shannon wished everyone Happy Holidays.

Councilwoman Koski wished everyone a Merry Christmas and a Happy New Year. She added the Vision Plans are on the website and asked Mr. Vanderpool to talk about the Vision Fair.

Mr. Vanderpool stated that information is available on the website, the main page, and click on the icon on the left side of the page. There is a common page with a map of the city, in addition to draft chapters of the plan that is currently in a draft stage. The next draft will be posted in about 30 days on the website.

Councilwoman Koski stated she received information on House Bill 5016 regarding Telecommunication. She requested Mr. Vanderpool to research that and give council an opinion.

Councilwoman Schmidt offered further clarification regarding the Detention Facility and the Smart Streets initiatives. She wished everyone a Merry Christmas and a Happy New Year.

Mayor Taylor stated that with no objection, Councilman Skrzyniarz' recommendation should be on the next agenda. People come to the podium to speak and provide information to help the City Council make their decision. If the time is reduced, it will allow more people an opportunity to speak. He reviewed the various ways to contact City Council members with a question or reach out to any of the council members. He would like to see the business meetings of the City Council focused and streamlined. He wished everyone a Merry Christmas and a Happy New Year.

ADJOURN

Moved by Ziarko, seconded by Romano, to adjourn the meeting.

Yes: All. The motion carried.

The meeting was adjourned at 10:29 p.m.

RESOLVED, to award the bid for pruning of street trees to Wonsey Tree Service, Inc., Post Office Box 1142, Alma, MI 48801, for the period of January 6, 2016 to March 15, 2016, at unit prices bid.

CITY OF STERLING HEIGHTS

STAFF REPORT

January 5, 2016

Prepared By: James Buhlinger, Purchasing Manager

Ext. No. 2741

GENERAL INFORMATION:

On December 15, 2015, bids were received for pruning of street trees. Invitations to Bid were advertised on SHTV, posted to the MITN website, Facebook and Twitter and published in the Sterling Heights Sentry. One (1) vendor responded as outlined on the attached tabulation.

Pruning of street trees will be performed in sections 3, 11, 12, and 15 and will include 3,932 street trees planted within the public right-of-way. Funds are available in 23700700 (Local Road Fund) 895000 (Tree and Shrub Maintenance).

STAFF ANALYSIS AND FINDINGS:

Personnel from the Department of Public Works and Office of Purchasing reviewed the sole bid and are recommending an award to Wonsey Tree Service, Inc. at unit prices bid. Specifications require the work to be completed by March 15, 2016. At Wonsey Tree Service's unit price bid of \$26.50 per tree, the cumulative cost of trimming the estimated 3,932 trees is \$104,198.

The Invitation to Bid included specifications for pruning a total of 4,792 trees: 3,932 trees located within in four primary city sections and 860 within an optional fifth section. The option for a fifth section was included as an alternate bid as a means to increase the scope of the project and potentially provide for more tree pruning within budgeted amounts. The bid pricing received does not allow for the award of the alternate bid.

Wonsey Tree Service is the incumbent vendor for this service. Additionally, Wonsey Tree Service provides emergency tree removal services to the DPW. Notwithstanding the current relationships, references for pruning services were re-checked and proved positive.

Please see the attached departmental recommendation for additional information.

STAFF RECOMMENDATION:

Please see the suggested action on the accompanying agenda statement.

VI. SPECIFICATIONS

The following defines the street tree specifications of the various street trees to be pruned within the City of Sterling Heights.

The successful bidder must be readily available to carry out terms of the contract and the failure to comply with standards specified by the City constitutes a breach of contract.

Award will be subject to budget availability and based on unit prices bid. For example, some or all of the sections for tree pruning may be awarded.

DESCRIPTION OF WORK

Contractor shall have an ISA Certified Arborist or state licensed arborist on site or request the services of such an individual for inspections.

The work to be performed is the pruning of designated trees along the City right-of-way. Trees to be pruned on designated streets are only those that exceed 4" in caliber as measured 1' above the ground. The City will provide a list of trees and streets where pruning will occur. The pruning to be done shall be as specified under pruning standards for shade trees, which is made part of these specifications.

CONDITIONS

Pruning operations are to begin 15 days after City Council's approval and shall be done on a continuous basis allowing only for weather or unforeseen circumstances and must be completed by **March 15, 2016**.

Work shall not commence prior to 7:00 A.M. or continue past sunset on any day.

No work is to be conducted on Saturday or Sunday.

Adequate warning devices, barricades, guards, flagmen and/or other necessary precautions shall be taken by the Contractor to give advised and reasonable protection, safety and warning to persons and vehicle traffic within the area.

Traffic shall not be totally detoured without written approval of the Director of Public Works or his representative.

Tools should be sharp so as to make clean cuts without jagged edges or stubs. Pruning tools adequate for the size of cuts being made shall be selected.

All pruned branches, logs or any other debris must be hauled away by the Contractor before the end of each day. Areas worked will be clean from any branches and debris leaving area "blower clean" by end of work day.

Work tools, equipment, and procedures shall meet the American National Standard (A.N.S.I. A300 Part 1-2008) for pruning, trimming, repairing, maintaining, and removing trees and for cutting brush.

Equipment and work practices that damage living tissue and bark beyond the scope of work shall be avoided.

Trees that have been marked with an "X" will be omitted from pruning.

When pruning tress during temperatures above 50 degrees, tools shall be sterilized before proceeding to the next tree with a 10% solution of bleach or Lysol disinfectant.

The contractor shall provide a list of all equipment to be used. Failure to do so will result in your bid being rejected as non-responsive. The City reserves the right to inspect all equipment to be used prior to awarding a contract. Failure to pass City inspection of equipment may be cause for disqualification from further consideration.

All work shall be performed in a professional manner using quality equipment and materials, all of which must be maintained and operated with the highest standards as well as meeting all MIOSHA and A.N.S.I. Z133-2012 standards and regulations.

The Contractor shall prepare a daily report, covering each day's operation. The report is to be submitted to the Public Works Office on the following day and shall include the following information:

- A. Street name and address of trees pruned or limbed.
- B. Any unusual conditions or problems encountered.

The City of Sterling Heights will process payment for work under this Contract at the price provided, only after receipt of a bill for work assigned and satisfactorily completed. The City reserves the right to complete the pruning of any tree or trees included under this agreement if not satisfactorily trimmed by the Contractor in accordance with the specifications set forth. All costs for this work shall be deducted from the invoiced amount.

The Contractor shall not subcontract any or all portions of the work unless prior written approval is granted by the City. Any subcontractor, so approved, shall be bound by the terms and conditions of this Contract.

Each street in a section must be completed prior to the tree pruning operations moving to subsequent streets. Each section of the contract must be completed prior to the Contractor moving to another section of the contract.

PRUNING STANDARDS FOR SHADE TREES AND SPECIFICATIONS

The work to be performed shall be as specified under the following pruning standards for shade trees, as detailed in the ISA's Best Management Practices, Tree Pruning 2008:

PRUNING TO CLEAN

Crown Cleaning is the selective removal of dead, diseased, detached, cracked, and broken branches. This type of pruning is done to reduce the risk of branches falling from the tree, and to reduce the movement of decay, insects, and disease from dead or dying branches into the rest of the tree.

Crown cleaning shall include branches of 1" dia. and larger throughout the entire crown.

PRUNING TO RAISE

Crown Raising is the select removal of branches to provide vertical clearance. Raising shortens or removes lower branches of a tree to provide clearance for buildings, signs, vehicles, and streetlights.

Caution shall be taken to avoid excessive removal of lower limbs to prevent slow development of trunk taper, cracks or decay in the trunk, and prevent the concentration of foliage at the top of the tree.

Clearance height shall be determined at a point over the street of 15 feet by removing downward-growing branches, and balanced around the entire tree.

On the smaller, less mature trees where this height is not practical, the under-clearance pruning will be in relation to the overall character of the tree. Subornation of lower branches is to be employed whereas not to exceed 25% reduction of the live crown. Mature or over-mature tree caution shall be taken when removing large branches low on the trunk.

The presence of any disease condition, fungus fruit bodies, decayed trunk or branches, split crotches or branches, cracks or other structural weakness should be reported in writing to a supervisor, and corrective measures recommended.

WORKMANSHIP

The specifications herein set forth are intended to cover the prominent phases of Tree Pruning to insure first-class workmanship. To safeguard the interests of the City, the Contractor will take all measures not specifically enumerated herein, but which conform to good practice to secure an acceptable result. To further protect the City, all essentials of good practice in hiring, working and protecting the work, and the protection of individuals and property, enumerated herein or not, shall be followed.

All work shall be performed in accordance with the best modern practice and workmanship of highest quality. Failure to conform to standards specified by the City shall be considered a breach of Contract.

The Contractor shall designate a supervisor who shall be available at all times to accommodate the City. The supervisor shall have the power to initiate immediate action to resolve disputes and/or complaints. The supervisor must be able to fluently communicate in English in order to address questions and concerns from city residents

as well as city inspectors and supervisors.

PENALTY CLAUSE

Should the City determine that the Contractor has not performed required services in a manner or time frame acceptable to the City, a City representative will notify the Contractor giving them from the date/time delivered:

- A. 24 hours to contact the City and discuss problem(s)
- B. 48 hours to correct the situation, unless otherwise agreed to by the City

Should the contractor fail to make corrections to City's satisfaction and/or in the required time frame, City crews or another contractor will correct the situation, and continue corrections until Contractor resumes his responsibilities or the contract is terminated. Invoiced amounts due Contractor will be reduced at a rate of:

- A. If completed by City Crews
Cost for labor, equipment (based on MDOT schedule C), and a 50% administration charge
- B. If completed by another contractor:
Invoiced amount plus 50%

Should there be insufficient invoiced amounts to cover penalties, Contractor will be billed. Should the contractor fail to pay the penalties the City will seek appropriate action for reimbursement, including forfeiture of contractor's surety.

Each deficiency will be reviewed for possible termination of contract. Should the Contractor fail, neglect or refuse to perform his duties under the Contract, the City of Sterling Heights reserves the right to terminate the contract upon 30 days written notice due to poor performance or for any reason deemed in its best interest.

Failure to respond to three or more phone calls for the services contemplated in the bid shall be considered a refusal to perform the duties under the contract.

STREET TREE PRUNING BIDDER'S PROPOSAL

All bids are to be submitted on the attached forms. Bidder shall complete and submit all forms and supply all attachments and documents as required and listed within this invitation to bid, and accompanying forms.

Contractor shall not be permitted to assign or transfer this Contract to another party, company, partnership, or corporation or sublet any part of the work embraced by it without specific consent and approval in writing from the Council of the City of Sterling Heights.

DAMAGES

Contractor will be performing work under this contract in open and active municipal street sites frequented by citizens and vehicle traffic and in most circumstances will border residential, school and commercial property. Contractor shall at all times use due care and caution in conducting their operations. Contractor shall be responsible for all damage, injury and claims from contractors operation.

Contractor shall guarantee the reimbursement, repair or replacement and restoration of any area or property damaged by felled limbs and the use of equipment or machinery. Contractor shall repair or replace any turf area, fences, signs, poles, mailboxes, vehicles and/or appurtenances damaged or destroyed in the performance of the Contract.

Executive Summary:

- The City of Rochester Hills coordinated a cooperative Request for Proposals (RFP) issued via the Michigan Intergovernmental Trade Network (MITN) for heavy-duty truck parts. These parts are used in preventative maintenance and repairs to the fleets of heavy-duty trucks owned by MITN participants. Lead agencies for this cooperative effort include Rochester Hills, Sterling Heights, and Farmington Hills. Favorable truck part pricing resulting from this cooperative RFP is extendable to other participating MITN agencies.
- Proposals were received on November 5, 2015. A committee made up of staff representing the cities of Rochester Hills, Farmington Hills and Sterling Heights thoroughly evaluated the five proposals and checked references received from responding vendors. The committee recommended that the proposal by Kirk's Automotive, Inc. be accepted for purposes of the MITN cooperative RFP. Rochester Hills accepted the proposal by Kirk's Automotive in December, 2015 as the host community for the cooperative RFP.
- Recommendation is being made to purchase heavy-duty truck parts from Kirk's Automotive at the unit pricing available through the MITN cooperative RFP. This cooperative RFP affords the best pricing for the largest number of parts required by the Fleet Maintenance Division. In addition, Kirk's Automotive is a distributor of NAPA parts, has an extensive background in the repair parts industry and its 55,000 square foot facility in Detroit is replenished daily from their 300,000 square foot warehouse in Romulus.
- Kirk's Automotive, Inc. is a new vendor for the City. This vendor has excellent references from its existing municipal customers.

CITY OF STERLING HEIGHTS
STAFF REPORT
January 5, 2016

Prepared By: James Buhlinger, Purchasing Manager

Ext. No. 2741

GENERAL INFORMATION:

On November 5, 2015, proposals were received by the City of Rochester Hills as host community for a Michigan Intergovernmental Trade Network (MITN) Request for Proposals (RFP) for the purchase of parts for maintenance and repair of heavy-duty trucks. The RFP was advertised and posted on the MITN website. Six (6) vendors responded with proposals, one of which was deemed non-responsive, as outlined in the attached supporting documents. It is anticipated that the City will spend approximately \$40,000 annually for these parts. Funds are budgeted in 1174453 (DPW Fleet Maintenance) 759000 (Parts and Sublet Services).

STAFF ANALYSIS AND FINDINGS:

The Fleet Maintenance Division of the Department of Public Works is responsible for the maintenance and repair of heavy-duty trucks, including 23 snowplow/dump trucks (tandem and single axle), five Vactor type combination jet trucks, four flat beds, two loaders, two stake trucks, and six heavy-duty, multi-functional trucks.

The RFP incorporated the heavy duty truck part needs of three full-service municipalities. The terms of the RFP requested contracted discounts off published catalog pricing for 22 unique auto parts manufacturers as well as a discount off additional product lines not specified. The lists include preventive maintenance and repair parts for all trucks/equipment required for maintenance of the heavy-duty fleet.

An evaluation committee represented by the three lead agencies (Rochester Hills, Sterling Heights and Farmington Hills) reviewed the proposals received in response to the RFP and checked references for all vendors. These vendors were evaluated in terms of pricing, product offering, references, and experience. The evaluation committee recommended Kirk's Automotive Inc. based upon its proposal.

Kirk's Automotive was established in 1946 as a warehouse distributor and remanufacturer of automotive and heavy duty parts. Kirk's Automotive has thirty-nine (39) full-time employees and services southeastern Michigan with a fleet of delivery vehicles. Kirk's Automotive is centrally located in Detroit with a 55,000 square foot warehouse which is replenished daily from their 300,000 square foot warehouse in Romulus, MI.

Additionally, in the event a part is not available at the Detroit or Romulus locations, Kirk's Automotive has additional warehouse locations in Grand Rapids and Columbus from which to pull inventory for overnight delivery with no additional charge.

References provided were checked by the evaluation committee and proved favorable.

Subject: Recommendation – Rochester Hills Heavy Duty Truck Parts Proposal

On Thursday November 5, 2015 proposals were received by the City of Rochester Hills for the purchase of Heavy Duty Truck Parts for maintenance and repair of large trucks in their Fleet. After reviewing all of the proposals submitted, the Purchasing and Fleet Managers unanimously recommended the contract to be awarded to the following vendor:

Kirk's Automotive Inc.
9330 Roselawn
Detroit, MI 48024

Kirk's Automotive has been in business for 69 years and has a good reputation for providing quality parts and competitive pricing on municipal contracts. Kirk's has 39 full time employees and offers free same day delivery of parts.

The Department of Public Works recommends accepting the proposal from the City of Rochester Hills RFP for the purchase of Heavy Duty Truck Parts. These parts will be purchased and utilized when necessary to make repairs to city owned vehicles or equipment. We anticipate spending \$40,000 annually through Kirk's Automotive.

Funds for the purchase of these replacement parts are budgeted in the Fleet Maintenance, Parts & Sublet Services account # 11744553-759000.

Heavy Duty Truck Parts
City of Rochester Hills Acting as Lead Agency
Award of Proposal RFP-RH-15-062

Administrative Summary

- Request for Proposals were posted October 22, 2015 on the MITN e-procurement system and opened on Thursday, November 5, 2015 on behalf of the Cities Rochester Hills, Farmington Hills and Sterling Heights with additional extension offered to the MITN Purchasing Cooperative. Notification was sent to over three-hundred and eighty (380) vendors with six (6) responding. One vendor did not provide pricing for the core list of items requested in the proposal and was deemed non-responsive.
- The request for proposal calls for a set percentage discount price structure for parts manufacturers. All parts must meet or exceed original equipment manufacturer's specifications. This includes preventive maintenance parts (clamps, belts, seals, etc.) and heavy duty truck repair parts for the maintenance of the City fleet. Additionally, the request required vendors to explain how they would meet delivery requirements for stock parts, on-demand orders and emergency needs as well as parts exchange/credit returns.
- A committee made up of City staff and representatives from Farmington Hills and Sterling Heights evaluated the five (5) responsive proposals. The committee unanimously recommended award to Kirk's Automotive, Inc. Their proposal offering covered the product lines requested with nationally known brands, their pricing was competitive, their knowledge of equipment repair was extensive, and multiple daily deliveries are available. Kirk's Automotive offers OEM training free of charge. The committee is confident that Kirk's Automotive, Inc. understands the full scope of the contract and will provide satisfactory service.
- Evaluation tabulation attached.

Award

The City of Rochester Hills on December 9, 2015 awarded the contract for Heavy Duty Truck Parts to Kirk's Automotive, Inc. for a period of three (3) years commencing January 1, 2016 with an option for a two (2) year renewal under the same terms and conditions upon mutual consent by the City and said vendor.

Re: Evaluation of RFP – Heavy Duty Truck Parts

Definition of the evaluation process: The City's sole purpose in the evaluation process is to determine, from among the responses received, which one is best suited to meet the City's (entities) needs. Any final analysis or weighted point score does not imply that one RFP is superior to another, but simply that in our judgment the vendor the City selects appears to offer the best overall solution from current and anticipated needs.

Attached please find evaluation forms and copies of the submitted RFPs. Please complete the forms for a meeting in the near future; all completed forms must be returned to me. Each evaluator must return a set of forms with their scores.

If you have additional questions of the vendors, please document them. We will gather all the questions together and I will contact the vendor or we can arrange a meeting, if necessary, for any number of "short listed" vendors and pose our questions. Also, please do not contact any of the vendors directly—all questions must go through me.

Thank you for you interest in participating and assisting in the evaluation of these proposals, I truly appreciate the cooperation.

I will follow-up with you in the near future about setting up an evaluation meeting to discuss the proposals and go through the scoring. At that meeting the goal will be to determine who to shortlist and bring in for interviews and demonstrations.

Information on stocking capabilities for parts required by cities	We will stock, in sufficient quantities, any parts the City agrees to purchase from A & L Systems.	We have three locations all three stock Freightliner and Sterling parts. The Mt. Clemens location is also a Western Star dealership. Dearborn is also a Ford dealership. We have a transfer driver making two trips daily between stores. Each store uses an automated ordering system to stock parts. This is based on quantity sold. If at first a certain part is not stocked it will be after the second purchase in six months.	The local store's inventory can/will be tailored to meet the needs of the City. O'Reilly prototype stores avg 6,800 s.f., with an avg inventory of 23,603 SKUs. We believe our commitment to a robust, regional, tiered distribution network provides superior replenishment and access to hard-to-find parts and enables us to optimize product availability and inventory levels throughout our store network. Our strategic regional tiered distribution network includes DCs and Hub stores. Our inventory management and distribution systems electronically link each of our stores to one or more DCs, which provides for efficient inventory control and management. We currently operate 26 regional DCs, which provide our stores with same-day or overnight access to an average of 146,000 stock keeping units (SKUs), many of which are hard to find items not typically stocked by other auto parts retailers. To augment our robust DC network, we operate 238 Hub stores that also provide delivery service and same-day access to an average of 41,000 SKUs to other stores within the surrounding area. We believe this is timely access to a broad range of products is a key competitive advantage in satisfying customer demand and generating repeat business.
Transition plan	Return any current or obsolete stock from previous vendors as soon as possible. A & L Systems will provide cross reference information as well as re-labeling on stock shelves and products when necessary.	We are currently a vendor. We typically do not participate in any buy back programs. However exceptions can be made for certain circumstances.	<p>Manufacturer supported product lift/changeovers - O'Reilly will engage manufacturers where the City's inventory lines qualify, and assist with supporting product lift/changeovers.</p> <p>Product Relabeling/Sell Down - O'Reilly will participate with the City's where merchandise in inventory does not qualify for product lift/changeover by the manufacturer and assist with re-labeling to an O'Reilly part number where possible. This will allow the City to look up the product as if it was an O'Reilly line and attempt to sell down the inventory.</p> <p>Inventory Liquidation - Inventory items at the City's locations that do not qualify for manufacturer product lift/changeover and/or in instances where the City does not want to re-label or sell down the inventory items, will be considered for liquidation upon approval from both the City and O'Reilly. Due to specificity of automotive products, liquidation typically produces a 10-cents-on-the-dollar financial result. O'Reilly will commit to working with the City to establish which merchandise falls into the liquidation category and assist with preparation and coordination with a liquidator.</p>

The Agreement obligates the City to perform the mowing and sweeping of County road medians and right-of-ways located within the City for the fiscal year indicated. The City will receive \$32,190.59 for performing the work. This amount represents the same amount from the previous year.

CITY OF STERLING HEIGHTS
STAFF REPORT
January 5, 2016

RE: To approve a Municipal Primary Street Maintenance Agreement for mowing and sweeping of County Roads

Prepared By: Michael Moore, Public Works Director / (586) 446-2450

GENERAL INFORMATION: The City of Sterling Heights has performed the mowing and sweeping of County roads for over 36 years. The City requested and received an Agreement to complete the work because the performance of the Macomb County Department of Roads (MCDR) did not meet City standards. All costs in excess of the payment received from the County for this work have been absorbed by the City in past years.

TECHNICAL INFORMATION: The MCDR has indicated that if its personnel or contractors perform the work, the number of mowing and sweeping revolutions will be capped at the amount budgeted. Likewise, the MCDR will only pay the City for the level of service that it would typically provide. The City, utilizing Act 51 monies, will pay for any additional mowings and sweepings above the \$32,190.59 to be paid by the County.

Over the last four years under this Agreement, the DPW expended the following on the maintenance of County roads, medians, and right-of-ways (r.o.w.) located within the City:

	<u>2011/2012</u>	<u>2012/2013</u>	<u>2013/2014</u>	<u>2014/2015</u>
Street Sweeping	\$32,340	\$31,468	\$32,655	\$52,040
Grass and Weed Control	\$143,067	\$146,980	\$187,304	\$177,727
Roadside Cleanup	<u>\$4,145</u>	<u>\$8,172</u>	<u>\$3,519</u>	<u>\$2,752</u>
Total Costs	\$179,552	\$186,620	\$223,478	\$232,519

STAFF ANALYSIS AND FINDINGS: The City received numerous complaints regarding the unsightly condition of County roads while maintained by the MCDR. The MCDR refused to provide additional revolutions of mowing and sweeping, indicating that their funding under Act 51, which also must provide for other maintenance items and new construction within the County, was not sufficient to provide a higher level of service. This level of maintenance was unacceptable to area residents, particularly since City roads, in terms of mowing and sweeping, were maintained to a much higher level of service. The County agreed that the City could sweep and mow County roads, and they would pay the City the amount equivalent to the level of service once provided by the County.

STAFF RECOMMENDATION: It is recommended that the City Council approve the 2015/2016 Municipal Primary Street Maintenance Agreement for the contract amount of \$32,190.59 and authorize the City Manager and City Clerk to sign the Agreement on behalf of the City.

**MUNICIPAL PRIMARY STREET MAINTENANCE AGREEMENT

WHEREAS, COUNTY and CITY wish to set forth the Agreement between the parties with respect to the providing of such services; and

NOW, THEREFORE, the parties agree as follows:

1. For and in consideration of the promises and covenants of the parties hereto, CITY agrees to provide such weed control and grass control services, and that sweeping services upon primary streets under the jurisdiction of the COUNTY located within CITY'S corporate limits as CITY determines are necessary for proper weed and grass control and the sweeping of such streets.
2. For the services to be performed by CITY in accordance with Paragraph 1 of this Agreement, the COUNTY agrees to pay CITY the sum of \$18,982.90 for grass and weed control, and the sum of \$13,207.69 for sweeping; for a total cost to the COUNTY of \$32,190.59.
3. CITY agrees to maintain automobile liability insurance in compliance with the No-Fault automobile insurance laws of the State of Michigan for motor-vehicles used by CITY for work performed under this Agreement, or to participate in a self insurance program satisfying the requirements of such law.

Executive Summary:

At the regular meeting of December 15, 2015, City Council postponed approval of the minutes from the December 1, 2015 regular meeting to afford the City Clerk time to research a correction suggested by Council member Deanna Koski. Specifically, Council member Koski noted the need to correct the following error:

Moved by Koski, seconded by Skrzyniarz, **RESOLVED**, to accept the proposal by G4S Secure Solutions, (USA) Inc., 29200 Vassar Street, Suite 240, Livonia, MI 48152, for operation of the police detention facility based on the fees as proposed for a three-year period, with an option for the ~~City Manager~~ City Council to extend the terms and conditions an additional three years, and authorize the Mayor and City Clerk to sign the contract on behalf of the City, subject to review and approval by the City Attorney.

The City Clerk concurs that there is a need to make a correction to the minutes in the manner suggested by Council member Koski. The attached corrected minutes highlight the text amendment.

REPORT FROM CITY MANAGER

Mr. Vanderpool reported on snow emergencies and reminded residents during the winter months, the City has to declare Snow Emergencies in order to effectively remove snow from city streets and sidewalks. Emergency alerts are broadcast on Sterling Heights Television (Channel 5 and 10), Sterling Heights Radio (AM 1700), the City's website (www.sterling-heights.net), press releases and list serve notices.

He pointed out when an emergency is declared, vehicle owners must remove vehicles from the street. Cleared roadways are necessary to ensure safe vehicle travel, but most importantly, parked cars represent a hazard to snowplow drivers which thus prevents the plowing of streets curb-to-curb. Cleared streets also allow safe travel for public safety transport, such as police & fire vehicles and ambulances. Vehicles must be removed two hours after a Snow Emergency is declared, giving owners ample time to remove their vehicles. If not removed, the violation will result in the issuing of a \$25 citation and the possibility that the vehicle may be towed at an additional cost ranging from \$80 to \$200. In addition, adjoining sidewalks of all residential, commercial and industrial properties must be cleared within 24 hours following a snow event. If not cleared, City inspectors will leave a door tag notice indicating the violation must be corrected within 24 hours of receipt of the notice. If the sidewalk is still not cleared within the next 24 hours after the notice has been issued, the City will remove the snow at the property owner's expense.

Mr. Vanderpool reminded everyone the new on-demand snow removal service from Plowz and Mowz is now available to assist residents with driveway and sidewalk clearing. He reminded residents they can download the app from the City's website. If a

resident does not have access to the internet, they can contact the City. This is the first year the City is trying this service.

Mr. Vanderpool reminded residents the 39th annual A Sterling Christmas will be held on Saturday, December 5, 2015 at 5:45 p.m. - 8:30 p.m. in Dodge Park. The Official Ceremony will begin at 6:00 p.m. with entertainment, the lighting of holiday decorations, and the arrival of Santa Claus. The event activities will include pony rides, a petting farm, wagon rides, carousel and caroling around a campfire.

Mr. Vanderpool reported on the Van Dyke improvements and stated all concrete roadway pavement, including cross-overs have been poured. Currently all 3 through lanes in each direction are open to traffic. New permanent traffic signals south of 17 Mile Road are operating and the signals north of 17 Mile Road will be operating in the weeks after Thanksgiving. Various work will continue through the winter as weather permits, such as work on medians and street lighting. Work on the intersections of Metro Parkway and 18 Mile Road will continue as the weather breaks in the Spring, along with landscaping and other aesthetic improvements.

Mr. Vanderpool reported Sterling Heights is on the cutting edge of economic development in Michigan, including the operation of our Velocity Center. He stated a new Cyber Security Range is currently under construction, with the opening scheduled for 2016. A short video was shown of the visit by the Governor of Ohio, John Kasich. The Governor was here to view the Velocity Collaboration Center to see how the State of Ohio could benefit from this type of operation.

Mayor Pro-Tem Romano called a five (5) minute recess at 8:02 p.m.

Mayor Pro-Tem Romano reconvened the meeting at 8:06 p.m.

Mr. Brian Baker, Finance & Budget Director, explained the City's independent auditor, Plante & Moran, PLLC, City Administrators Leslie Reinhart and Nick Makie and personnel from the Office of Financial Services recently completed work on the audit of the City's financial statements for the fiscal year ending June 30, 2015. He provided an overview of the audit showing the financial statements of the City with the use of a power point presentation. He pointed out the additional funds to Fund Balance Reserves, the additional amount for capital spending, the increase in funds for local road repairs in the neighborhoods and major roads and showed a video of all the road work that has been

done over the past year. Mr. Baker discussed retiree medical assets and pointed out we now have over four times the assets we had six years ago and eleven times the assets we had ten years ago. The City continues to benchmark itself with other communities and in terms of our tax rate, the City compares very well with all cities in Macomb County and we are almost six mills below the average and thirteen mills below the City to the south. The taxes paid per resident are the lowest of any of the ten largest Michigan cities by population. Mr. Baker pointed out in terms of debt, the City of Sterling Heights ranks the lowest and we have not borrowed money and had a problem paying it back. He stated they continue to provide an accurate look to the future actual spending and continue to follow the long range financial plan. The City is starting to see some savings from the retirement plan change, adding additional police and fire officers and reinvesting in capital assets.

Mr. Baker introduced Mr. David Helisek, Partner at Plante & Moran, to present the Comprehensive Annual Financial Report for fiscal year 2014/2015.

Mr. Helisek introduced Mr. Rumzei Adallah to provide a background on the process used by Plante & Moran.

Mr. Adallah explained the process and reported all the City's financial records are accurate.

Mr. Helisek stated Plante & Moran is about to give the City's audit the highest level of assurance they can give a set of financial statements. He commended the City for their proactive approach in addressing post retirement benefit funding liability and stated the City is contributing nearly 50% funding in a short period of time. Mr. Helisek

commended the City on the budgeting process for the roughly \$93 million budget and stated it is within 1% of the revenue side. He pointed out with the CAFR's unqualified opinion it allows the City to maintain its outstanding bond rating, saving the taxpayers hundreds of thousands of dollars. He thanked the City's finance staff for the outstanding job recording all the information.

Ms. Leslie Reinhart presented the CAFR and Distinguished Budget Presentation awards to Mayor Pro-Tem Romano.

Mayor Pro-Tem Romano expressed kudos to the entire finance staff for all they do.

Moved by Ziarko, seconded by Schmidt, **RESOLVED**, to receive and accept the Comprehensive Annual Financial Report for the fiscal year ended June 30, 2015.

Councilwoman Ziarko thanked the City staff and Plante & Moran for helping the City with this report. The City Council is happy the City receives all these awards for all the hard work they do.

Yes: Ziarko, Schmidt, Shannon, Skrzyniarz, Koski, Romano.

Absent: Taylor. The motion carried.

ORDINANCE INTRODUCTION

1. Mr. Brian Baker, Finance & Budget Director, made a presentation on the mid-year budget amendments. He explained the Appropriations Ordinance allows for the expenditure of City funds. The ordinance is amended twice a year - mid year in December and then in June at the end of the fiscal year. The amendment includes items the City Council has authorized a budget amendment for throughout the year and

items approved in last year's budget that need to be carried forward into the current year's budget.

Mr. Baker pointed out the General Fund budget contributes \$869,000 to fund balance reserves. The contribution decreased only \$59,950 due to the carry forward of unspent prior year encumbrances and public safety grant match funding, partially offset by additional revenues. The budget for the other City Funds was adjusted by \$12.9 million. \$4.5 million is to record the new Clinton River Bank Restoration grant. \$4.4 million is to carry over unspent Major Road projects from last year including the reconstruction of Van Dyke. \$1.4 million is to re-appropriate unspent Capital Projects including the repairs to the City Hall parking lot. The amendment also includes capital items approved since the budget was adopted.

Mr. Baker pointed out this is the first reading of the ordinance and it is scheduled for adoption at the next regular City Council meeting.

Ms. Linda Godfrey questioned the new items purchased under capital expenditures.

Mr. Baker responded to the resident's question and stated there was an air conditioner replacement system approved by City Council, Dodge Park Road property acquisition, City Hall floor covering and sewer repairs, Information Technology purchases, Motor Vehicles, Police weight room equipment, Exercise equipment and some replacement vehicles.

Moved by Ziarko, seconded by Schmidt, **RESOLVED**, to introduce the first amendment to the Appropriations Ordinance for the 2015/16 fiscal year.

Yes: Ziarko, Schmidt, Shannon, Skrzyniarz, Koski, Romano.

Absent: Taylor. The motion carried.

CONSIDERATION

3. Mr. Victor Maza, appearing on behalf of Taza, Inc., was present with Joe Shaba and Louie Odishana in their request to transfer ownership of a 2015 Class C liquor license. Moved by Skrzyniarz, seconded by Shannon, **RESOLVED**, that the request to transfer ownership of 2015 Class C liquor licensed business with Sunday (PM) sales permit and new dance permit located at 2383 Fourteen Mile Road, Sterling Heights, MI 48310 from Taza, Inc. to Taza Banquet Hall, Inc. be considered for approval.

Councilman Skrzyniarz indicated he reviewed the backup information with the favorable recommendations from the City departments and he sees no reason not to move forward with this transfer request.

Councilman Shannon also reviewed the recommendations and indicated there was no objections from any of the City departments and that is all he needs to support the motion.

Yes: Skrzyniarz, Shannon, Ziarko, Koski, Romano, Schmidt.

Absent: Taylor. The motion carried.

4. Mr. Constantini Antonis from Fuddruckers was present

Moved by Shannon, seconded by Skrzyniarz, **RESOLVED**, that the request to transfer ownership of an escrowed 2015 Class C liquor license, with SDM license and Sunday Sales Permit (new A.M. and P.M.) at 13883 Lakeside Circle, Sterling Heights MI 43813 from Cheeseburger of Sterling Heights, LLC to AG Foods, LLC, be considered for approval.

Councilman Shannon stated the same recommendation is being made by the City administration and he is comfortable with the motion.

Councilwoman Schmidt questioned whether the 18 Mile Fuddruckers was closing and Mr. Antonis indicated no.

Yes: Shannon, Skrzyniarz, Koski, Romano, Schmidt, Ziarko.

Absent: Taylor. The motion carried.

5. Mayor Pro-Tem Romano recommended the appointment of Donald McCoy to the Solid Waste Management Commission.

Moved by Ziarko, seconded by Romano, **RESOLVED**, to appoint Donald McCoy to the Solid Waste Management Commission to a term ending June 30, 2016, subject to the appointee meeting the qualifications set forth in Charter §4.03 and taking the oath of office within two weeks.

Yes: Ziarko, Romano, Schmidt, Shannon, Skrzyniarz, Koski.

Absent: Taylor. The motion carried.

6. Item D from the Consent Agenda:

Mr. Vanderpool gave a brief overview of the proposal for the continued operation of the police detention facility. He stated the Sterling Heights Police Department operates an on-site, 26-cell detention/lock-up facility for the booking and lodging of all Sterling Heights arrests. In addition to the initial booking and lodging of arrestees, the detention staff also prepares those arrested for arraignment, transfer to the Macomb County Jail following arraignment, transfer to other law enforcement agencies, and release. The facility operates 24/7/365 and handles 4,000 arrests per year, or about 11 per day.

He pointed out in October 2010, City Council accepted a proposal by G4S Secure Solutions, (USA) Inc. for the operation of the police detention facility for a two-year period. In December 2012, the City exercised an option to extend the terms and conditions of G4S' proposal for another two years based on the effective and efficient services being delivered.

Mr. Vanderpool stated the current proposal accepted by City Council in October 2010 expires January 10, 2016. Anticipating this expiration, the Police Department and Office of Purchasing issued a Request for Proposals for operation of the police detention facility.

The Police Department and Office of Purchasing are recommending that the proposal by G4S be accepted for the following reasons:

- A. The current model of having a third-party contractor operating the detention/lock-up facility allows the City to realize substantial savings over the old model of staffing the facility with police personnel. The City will realize an estimated annual savings of \$552,473 and an estimated cumulative savings of \$1,657,421 over the course of the three-year proposal. In addition to direct financial benefits, the reliance on a third-party contractor allows the Police Department to deploy and devote sworn police officers to street and other essential duties that directly assist in keeping the City safe.
- B. G4S is the world's largest private sector employer in the world, with over 620,000 employees. G4S operates the City of Southfield's detention facility and has been providing daytime detention facility services and court security to the 36th District Court for over 24 years.
- C. G4S' proposal contemplates operation of the detention/lock-up facility 24/7/365, with a lead officer (supervisor) and a security corrections officer at all times. A dedicated facility manager will oversee operations 40 hours per week (Monday through Friday) to allow coordination of services with the Police Chiefs' office and address issues if they arise.
- D. G4S indemnifies and holds the City harmless from liability claims arising from the operation of the detention/lock-up facility.

E. Employees of G4S undergo a thorough background investigation by both G4S and the Sterling Heights Police Department before assignment.

Mr. Vanderpool stated G4S Secure Solutions is committed to providing the same level of service to the Sterling Heights Police Department as they have over the past five years.

The proposed three-year pricing from G4S represents a 3% increase over the rates being currently charged.

A recommendation is being made by the Police Department and Office of Purchasing to accept G4S' proposal.

Mr. Vanderpool stated Bryant Carter from G4S is available as well as Captain Berg from the Police Department.

The following residents spoke:

Mr. Michael Lombardini expressed concern with a private company performing this role and believes this would be a violation of the social contract between the government and the citizens. He is opposed to outsourcing police duties.

Mr. Jeffrey Norgrove spoke against the privatizing of this service and expressed concern with possible future protests.

Mr. Michael Radke is not against saving money, but government has a duty to take care of its own citizens.

Mr. Joel Thomas echoes what the other residents have said. Government has a role to play and to provide security and justice for the people they serve.

Mr. Charles Jefferson agrees with the previous speakers and stated we have a viable police force and that is all the citizens ask for. The majority of the citizens

want to have the police out in the neighborhoods and keeping violators off the street.

Mr. Michael Rath of Sterling Heights agrees with Mr. Lombardini and stated if it was a good idea to prioritize this service, Macomb County would be doing it. He stated we need sworn officers doing this job.

Ms. Linda Godfrey is in total agreement with all the speakers. She pointed out the reason the City privatized the jail was because of financial constraints. At this time, she would prefer to see the jail staffed with sworn personnel. Ms. Godfrey would like to see Dispatch returned to the Police Department.

Captain Berg responded to the comments made by the residents. He stated the Police Department has had a great relationship with the people running the jail. It would require eight officers less on the road to main the jail. He pointed out the problems they have experienced with technology in the jail. Captain Burke pointed out the people at G4S are trained on this technology and they do it every day. He stated this is working very well for the Police Department.

Mayor Pro-Tem Romano stated when the City privatized the jail, it was done for financial reasons and we were able to put more officers on the street. His biggest concern is with liability and we have had no problems with this company. They are doing the job at a lot less cost and the City has no liability.

Moved by Koski, seconded by Skrzyniarz, **RESOLVED**, to accept the proposal by G4S Secure Solutions, (USA) Inc., 29200 Vassar Street, Suite 240, Livonia, MI 48152, for operation of the police detention facility based on the fees as proposed for a three-year

period, with an option for the ~~City Manager~~ City Council to extend the terms and conditions an additional three years, and authorize the Mayor and City Clerk to sign the contract on behalf of the City, subject to review and approval by the City Attorney.

Councilwoman Koski pointed out this is a three-year contract. The City can hire its new police chief and have him review this for the next couple of years and if he finds an issue with it, it is something the City can review. She inquired how the company is supervised and who is responsible for making sure that everything is done properly in the detention facility.

Captain Berg responded they have a supervisor there Monday through Friday. Lt. Dave Smith is responsible for overseeing the day to day operations of the jail.

Councilwoman Koski questioned how many police officers it would take to man the jail on any given day.

Captain Berg responded two per day, but eight officers would have to be assigned to that jail facility.

Councilwoman Koski questioned the number of officers that would want to be assigned to the jail and Captain Berg responded a few.

Councilman Skrzyniarz agrees with Councilwoman Koski's remarks. The Council has to make tough decisions on the budget and we want to keep police officers on the streets. For these reasons, he will support the motion on the floor.

Councilwoman Ziarko questioned the cost if our police officers were to man the jail.

Mr. Vanderpool responded the cumulative cost would be just over \$1.6 million.

Councilwoman Schmidt questioned supervision on the weekends.

Captain Berg responded in the evenings and on weekends, each shift has a lower level supervisor and there is always a senior detention worker there at all times.

Councilwoman Schmidt stated to the resident that wanted the item postponed to go out for re-bids, no one else bid. She believes the residents of Sterling Heights would prefer to have eight police officers on the streets rather than our officers manning the jail. She is comfortable with extending this contract.

Councilman Shannon stated he had an opportunity to tour the facility and speak to G4S employees. Everything is going smoothly. He questioned the main duties of the G4S employees.

Captain Berg responded it is to take care of the people that are locked up. They are searched by our police officers and then G4S does the booking of the prisoners.

Councilman Shannon questioned how people at the desk have a visual of that part of the jail.

Captain Berg responded there is a camera at the front desk to monitor most of the jail where the prisoners are housed.

Councilman Shannon agrees with the contract and stated it is a huge savings for the City.

Yes: Koski, Skrzyaniarz, Ziarko, Romano, Schmidt, Shannon.

Absent: Taylor. The motion carried.

COMMUNICATIONS FROM CITIZENS

Mr. Jeffrey Norgrove - Community Tree at the Upton House/ornament donations;
December 12th meeting at the Senior Center.

Mr. Charles Jefferson of Sterling Heights - Refuse collection, Drone ordinance, Inspection of buses/Ride-Share.

Mrs. Jazmine Early - Interfaith event November 22/invitation to residents, Refuse contract.

Ms. Linda Godfrey - Phone scams/need to alert residents, ornament contest ; Waste hauling contract/transfer station, M-1 zoning requirements.

Mr. Dennis White of Sterling Heights - Citizen's right to speak at City Council meetings.

Mr. Harry Marchlones of Sterling Heights - Trash hauling contract.

Mr. Michael Lombardini - Chief Reese's retirement; Capt. Berg as Interim Police Chief.

REPORTS FROM CITY ADMINISTRATION AND CITY COUNCIL

There was no report from Mr. Bahorski at this time.

Mr. Vanderpool responded to questions from residents and indicated the City is having a Visioning Fair on December 12th from 9 a.m. to 12 p.m. It is in response to the City's Master Plan process that is underway and the Parks and Recreation Plan that is being updated. He encouraged residents to provide feedback on what they want to see included in the Master Plan and Parks and Recreation Plan.

In regard to the questions about the refuse contract, Mr. Vanderpool pointed out the last time we went out to bid on refuse, we included an option for Citywide curbside recycling and that option was not chosen because it turned out to be too costly. We need to look at all the options and obtain prices on them. Mr. Vanderpool pointed out we cannot comingle providers in the City and we will only have one provider in the City. With respect to the containers, it's time to look at them for a number of reasons. He pointed

out there are rodent problems in certain areas of the City and there is the aesthetic element as well. Robotic arm trucks would be used to dump the containers at the curb, eliminating the need for another person on the truck for a significant savings.

Mr. Vanderpool stated in regard to the phone scams, the City did post something on social media today and had over 20,000 hits.

Mr. Vanderpool stated an ornament contest for next year is a great idea and they will look into it.

Mr. Vanderpool stated it is time for the City to review its taxicab ordinance and see if it needs to be updated with respect to the ride-share option.

In regard to a Drone Ordinance, Mr. Vanderpool believes it is too early to consider that.

Councilwoman Schmidt reported that she received one of the scam phone calls today.

She suggested that something be put on SHTV or the City's website or both.

Councilwoman Schmidt stated in regard to the trash situation, she has received an overwhelming amount of messages and phone calls. She has not had one person speak in support of doing anything other than what we are doing right now.

Councilwoman Schmidt questioned a statement made by Mr. Vanderpool that there would not be multiple haulers in the City. She pointed out there is the potential for multiple haulers for two years if Waste Management doesn't get the Waste Hauling Contract since they still have the recycling contract until 2018.

Councilwoman Ziarko inquired whether December 12th is the only Visioning Fair the City will be hosting for the residents. She stated she just found out about it on Monday

and stated some council members already have plans for December 12th. She stated the Saturday before Christmas is not the most ideal time to have this meeting.

Councilwoman Ziarko agrees with Councilwoman Schmidt and stated no one has called her and said they are in favor of changing anything we have right now with our refuse contract. She has heard negative comments about the bins and inquired what the residents would do with their existing bins.

Councilwoman Koski stated she received the same phone scam and the City needs to put something out there for the senior citizens.

Councilwoman Koski questioned whether there would be a presentation at the December 12th meeting or whether it is only to obtain information from the residents. Also, if there would be open communication between 9 a.m. and 12 p.m.

Mr. Vanderpool responded it would be set up in such a way that people can come and go in that time frame. There would be boards set up for residents to write down their thoughts. The City would be providing updates on what is in the current Parks and Recreation Plan. It would be a very informal process.

Councilwoman Koski stated the Historical Commission is asking residents to bring an ornament representing their family this Saturday, December 5th for Sterling Christmas. The ornaments would be used to decorate the community tree in the Upton House. She asked Mr. Vanderpool to explain how the residents would bring in their ornaments.

Mr. Vanderpool responded he is sure the Upton House would appreciate any ornaments for the tree and if there is excess, they could be donated to a family in need.

Councilman Shannon stated in regard to the waste hauling contract, not once did he say he was in favor of the 96-gallon trash cans. The City needs an opportunity to review the bids with the different alternatives. Councilman Shannon pointed out this bid process was going to happen in one or two years anyway. The City Council will continue to solicit comments from the residents on what they want. If the residents don't want a change, that is ok too. He is only asking for bids to save the City money.

Councilman Skrzyniarz announced that he is setting up a scholarship with the Sterling Heights Community Foundation. The name of the scholarship will be the Martin Luther King, Jr. Scholarship on Diversity and Inclusion. He stated if anyone is interested in supporting this award, they could contact Community Relations Director Bridget Doyle.

ADJOURN

Moved by Ziarko, seconded by Schmidt, to adjourn the meeting.

Yes: Ziarko, Schmidt, Shannon, Skrzyniarz, Koski, Romano.

Absent: Taylor. The motion carried.

The meeting was adjourned at 10:07 p.m.

Executive Summary

Background – Maple Lane Golf Course, LLC, a Michigan limited liability company (Applicant), has made application to the Michigan Liquor Control Commission (MLCC) for the transfer of ownership of a 2015 Class C liquor licensed business, with new dance-entertainment permit, Sunday Sales (AM and PM), and specific purpose permit, from Maple Lane Golf Course, a Michigan corporation. The location of the licensed premises will remain at 33203 Maple Lane, which serves as the clubhouse for the Maple Lane Golf Course. The cost allocated to the purchase of the Class C liquor license is \$50,000.

Applicant's sole member is the Mocerri Family Living Trust, whose co-trustees are Dominic and Frances Mocerri. Dominic Mocerri has previous experience owning a liquor licensed business. From 1979 to 1993, Mr. Mocerri owned a Grand Blanc, Michigan bowling alley, which was licensed by MLCC for the on-premises consumption of alcoholic beverages. Members of the Mocerri family will oversee the management of the restaurant/banquet facility business along with their other business interests; however, day-to-day oversight of the restaurant business will be performed by experienced managers hired by the Mocerri Family. There are no physical changes planned to the clubhouse building or golf course operations at this time.

Applicant will continue to offer patrons golf, restaurant and banquet services. Inside the clubhouse, there are two areas that offer sit-down food and beverage service, with seating capacity of 160 and 200 patrons, respectively. The golf course hours of operation are from early morning (for early golfers) until the last golfer is off the course at night. The clubhouse may remain open later for scheduled events. Entertainment will consist of patron dancing. Applicant is also transferring Sunday Sales Permits (AM and PM), an Outdoor Service Permit, Specific Purpose Permit (food and golf) and four (4) bar permits. Outdoor service will be provided to golfers on the course.

The Police Department, Fire Department, Office of Planning, Office of Building Services and Office of Treasury have completed their respective reviews and report no objections to the application.

Since this is a request for a *transfer* of the license from within Sterling Heights, it will have **no effect** on the City's quota licenses.

City Administration is recommending that City Council recommend approval of the transfer utilizing the one-step process. The following criteria from §5-34(G) of the City Code support this recommendation:

- (2) The Applicant's general business management experience;
Applicant has extensive business management experience, primarily in the land development area.
- (5) The Applicant's financial status and its ability to build and/or operate the proposed facility on which the proposed liquor license is to be located;

Applicant's Statement

1) Applicants Character and Experience:

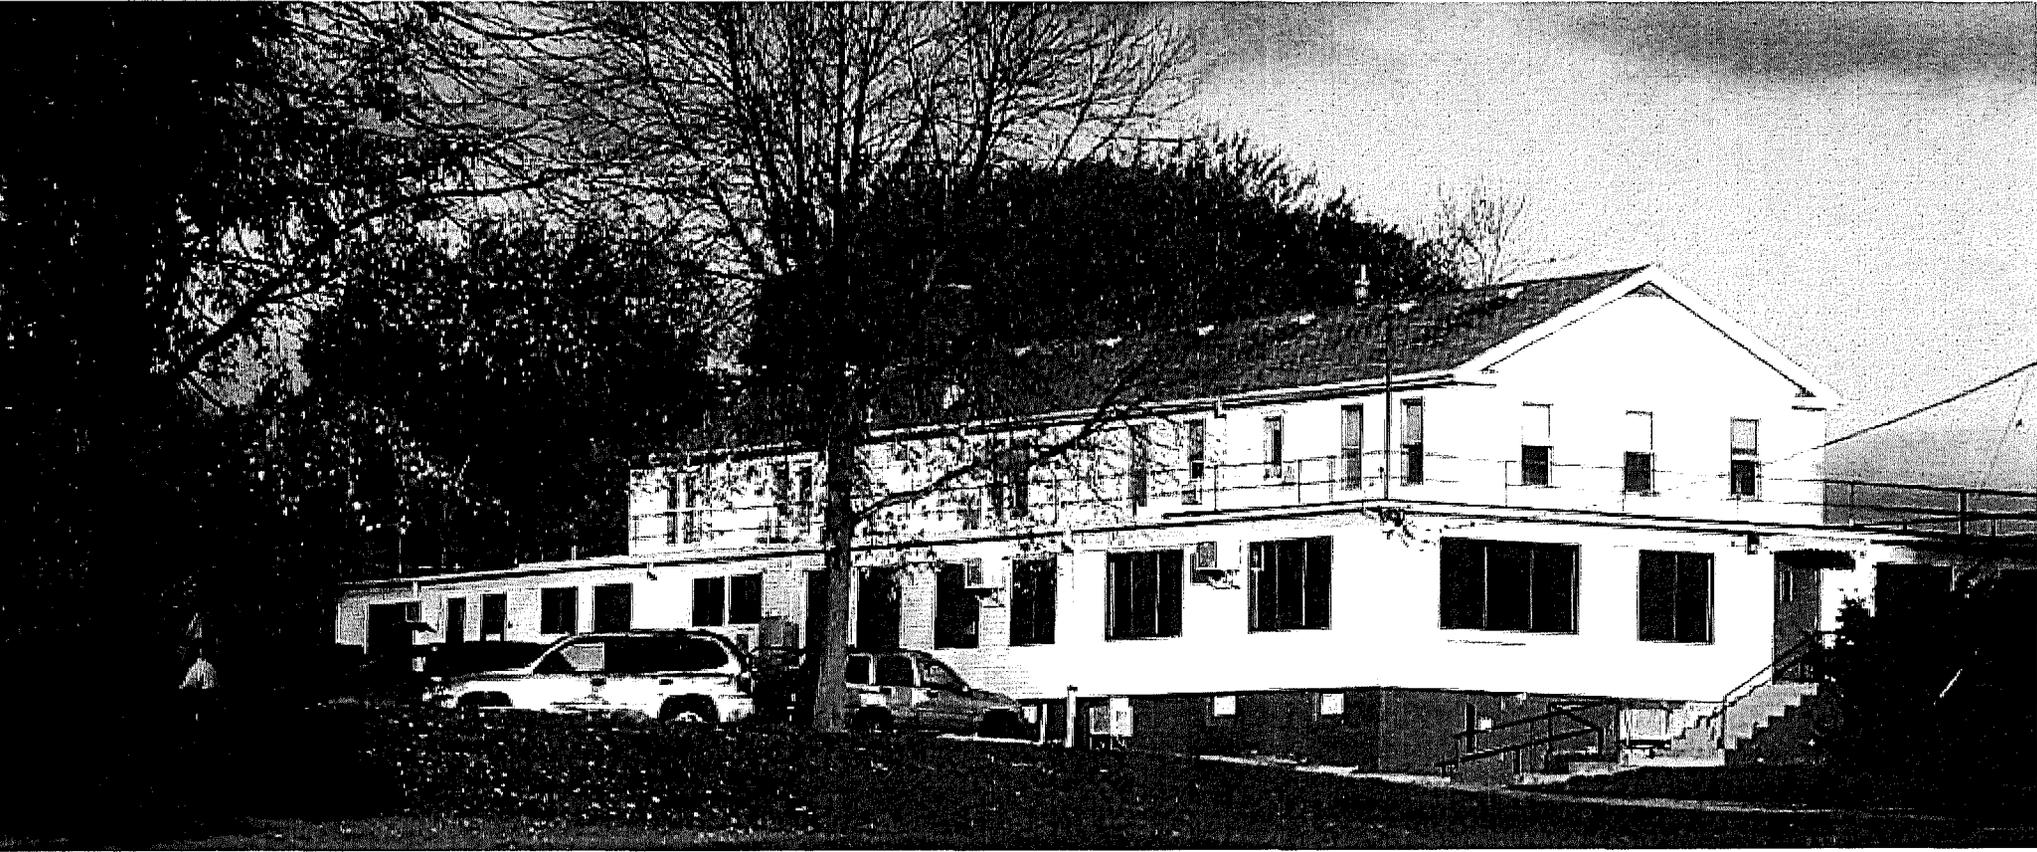

The applicant applying for the liquor license transfer is Maple Lane Golf Course LLC ("MLGC"). Its sole member is the Mocerri Family Living Trust u/a/d January 15, 1997, as amended, whose co-trustees are Dominic and Frances Mocerri.

Dominic Mocerri has previously held a liquor license at Galaxy Lane in Grand Blanc, Michigan, from 1979 to 1993 (without being assessed any violations). Mr. Mocerri's primary business is in real estate development, where he has run a successful family business for over 50 years. He is an exemplary businessman and adds value to every community in which he has operated a business. Mr. Mocerri intends to provide Maple Lane Golf Course with the necessary funding to make the golf course an ongoing success. His business experience and knowledge will allow him to effectively contribute to the operation of the golf course.

Frances Mocerri, co-trustee, has been involved with the family business for the last 30 years. As the matriarch of the family, she raised the children and then returned to her role of overseeing the challenges of maintaining a successful family business. Mrs. Mocerri's oversight routinely keeps projects on schedule and within budget parameters. She intends to apply her business experience and knowledge to the challenge of increasing profitability at Maple Lane Golf Course. She is intent on providing Maple Lane Golf Course LLC with the necessary funds needed to keep the golf course functioning on a daily basis. In light of her experience in the family business, she welcomes challenges which may arise from time to time at Maple Lane.

2) Proposed Use, Improvements, Hours of Operation and Activities at Maple Lane Golf Course:

MLGC intends to operate the property as it is currently used. It will not be constructing any structural additions to the existing structure before it opens for business (or any time in the near future). Although there is no plan in place to cause the property's clubhouse to be remodeled, MLGC will likely implement some updating on the interior. MLGC is focused on maintaining the condition of the golf course in a manner consistent with other courses in southeastern Michigan and keeping the various golf leagues at this facility. MLGC will market the clubhouse facilities for banquets, receptions and graduations. It has requested an entertainment permit and submitted its Agreement Regarding Entertainment Permit Request with its application to the city. The permit is needed to allow patrons the opportunity to dance when there is a DJ or live music performing in the clubhouse/banquet areas. The only dancing at Maple Lane Golf Course will be by its patrons who are attending an event at the property on an area of the floor specifically designated for dancing. MLGC intends that the hours of operation shall be limited to the parameters of the law and not seek a permit for extended hours.

Executive Summary:

Background – Since adoption on April 5, 1994, the Governing Body Rules of Procedure (the Rules) have been periodically reviewed and amended eleven times to address desired changes to the rules and procedures that govern the conduct of City Council meetings.

At the regular meeting of December 15, 2015, City Council member Doug Skrzyaniarz, with the consent of the City Council, proposed that an amendment to the Rules be drafted and brought forward that would reduce the time allotted to citizens to comment on agenda items and under Communications from Citizens from seven minutes to four minutes. The seven minute limit was introduced into the Rules in 2012.

Proposed Amendment – City Administration has prepared the following text amendment to Rule 5 for City Council consideration:

RULE 5. CITIZEN COMMUNICATION

A person may address the Council once on each agenda item at the time the item is considered, but prior to Council consideration, and once under "Communications from Citizens" as provided for on each agenda for regular and special meetings. The following rules shall apply when a person is addressing the Council:

- A. All comments shall be directed to the Chair. A person does not have the right to engage in discussion or debate with the Council or any member.

- B. A person may be called to order by the Chair or any Council member for failing to be germane to the business of the City, for use of vulgarity, for a personal attack on persons or institutions, or for announcing or advancing the speaker's candidacy for public office.
- C. A person is allowed ~~six~~ three minutes to address the Council, with not more than one additional minute to summarize and conclude. The Chair may reduce the allowable time to three minutes to ensure that all persons interested in addressing the Council on an agenda item or under Communication from Citizens have an opportunity to speak. The Chair's ruling is subject to an appeal by any Council member to the Council.
- D. Under "Communications from Citizens," a person may address the Council on issues not on the agenda. At this time, any person not a member of the Council may address the Council.
- E. Generally, no response shall be made by a Council member or Administration until all persons have finished addressing the Council. The Chair shall first request a response from the Administration and then Council members may comment.
- F. A person who is called to order for a violation of these rules shall thereupon take his/her seat until the Chair shall have determined whether he/she is in order. Every question of order shall be decided by the Chair subject to an appeal by any Council member to the Council. If a person so engaged in presentation shall be determined by the Council to be out of order that person shall not be permitted to continue to speak at the same meeting.

At a special meeting of the Council, any matter brought up from citizens may be deferred to another time or referred for study and recommendation upon the request of the Chair or the majority vote of the Council present; however, if all members of the Council are present at any special meeting, then any business which might come lawfully before a regular meeting of the Council, may be transacted at such special meeting.

A survey of time limits adopted by comparable municipalities indicates that on average, 3.6 minutes is granted to a citizen when addressing the governing body. The results of the survey are presented immediately below:
