Agenda Item #2

Budget Amendments

Interoffice Memorandum

Date: April 20, 2016
To: Mark D. Vanderpool, City Manager
From: Denice A. Gerstenberg, City Development Director
Subject: Sidewalk Gap Completion on Clinton River Road – West of Schoenherr to Hayes Road

Per Councilwoman Koski's request at the April 12, 2016 budget hearing, please see below:

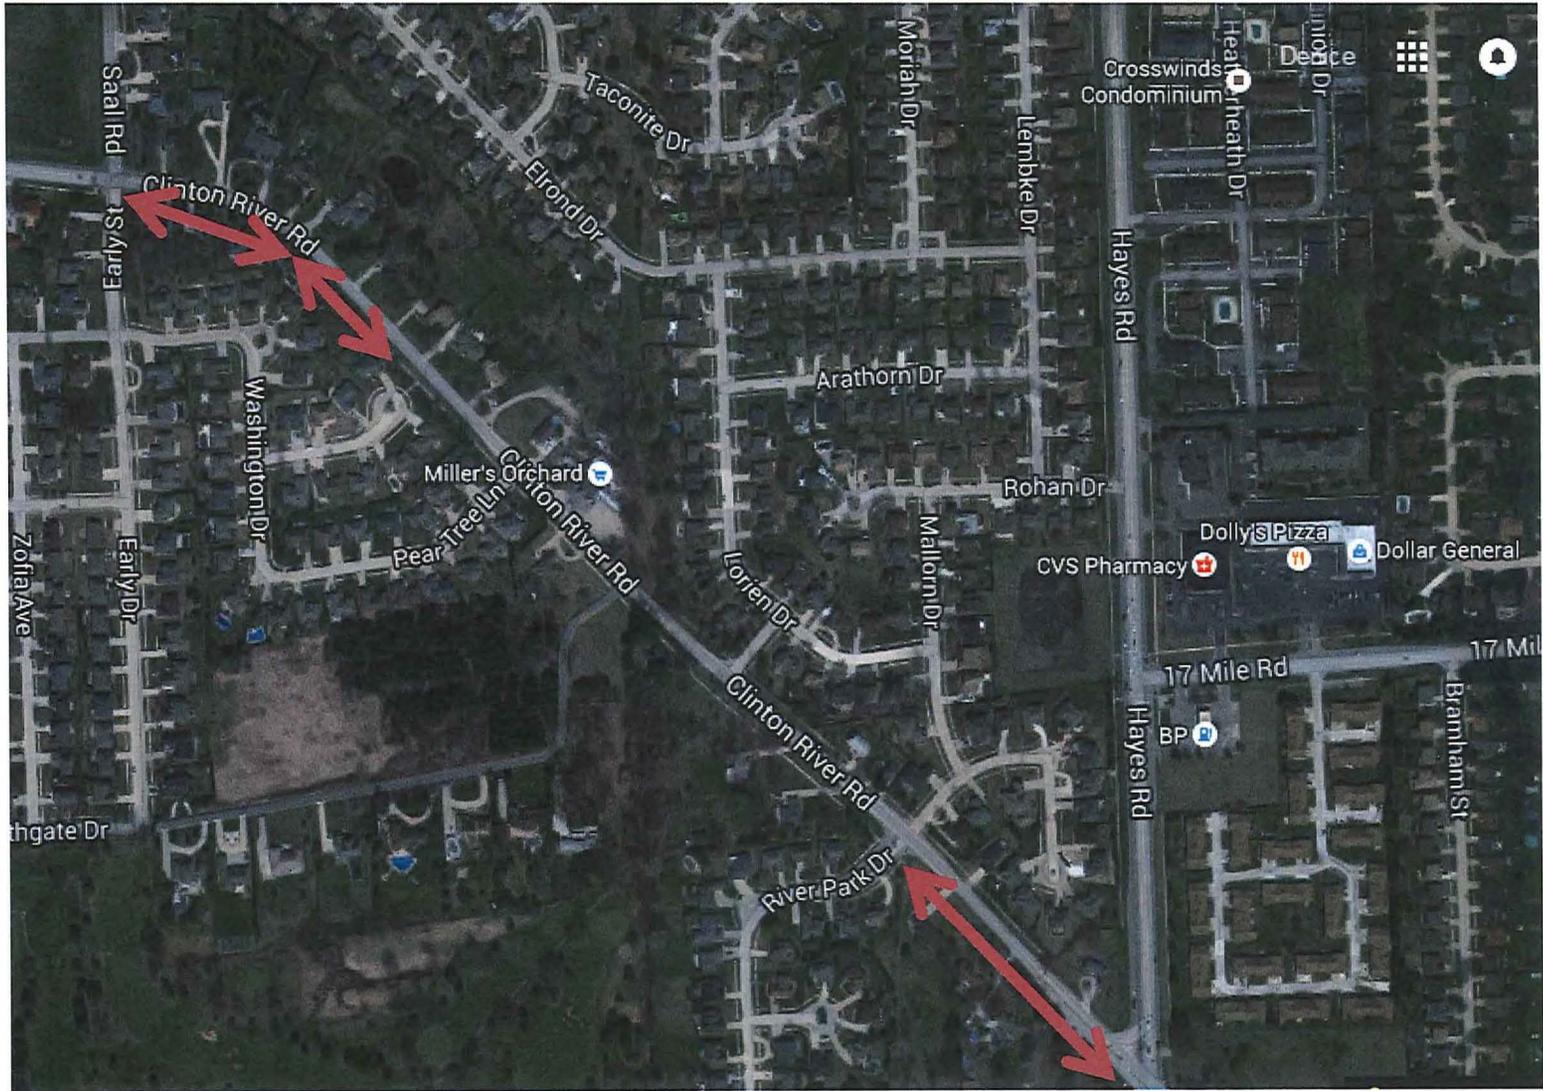

1. Can the sidewalk walk gaps on Clinton River Road from west of Schoenherr to Hayes Road be completed?

The sidewalk on the south side of Clinton River Road can be completed with the sidewalk gap program. There are eight parcels that currently need sidewalk. The city owns the right-of-way. Three of the parcels near Saal Road are currently on well water and should have a water main installed at the same time as the sidewalk. Otherwise the sidewalk would need to be removed prior to installing the future water main. The remaining five parcels are between River Park Drive and Hayes.

Sidewalk has not been planned for the north side of Clinton River Road between Hayes and Schoenherr because 1) the city does not own all of the right-of-way and 2) there are many obstacles that would have to be relocated in order to install the sidewalk (sanitary sewer manholes water gates, utility poles). These obstacles would significantly increase the cost of installation.

In order to proceed with this project, the budget should be amended to add the cost of the water main construction (\$50,000) in the water & sewer fund and the cost of the special assessment district (SAD) portion (\$50,000) in the Sidewalk Gap Completion Program.

PROPOSED SIDEWALK GAPS ON CLINTON RIVER ROAD TO BE COMPLETED

Sidewalk Gap Project – Clinton River Road

At the April 12th Budget Workshop, Councilwoman Deanna Koski requested information regarding completing the sidewalk gaps on Clinton River Road from west of Schoenherr Road to Hayes Road. There are eight parcels that currently need sidewalk and the City already owns the right of way. A water main would also need to be installed prior to installing the sidewalk.

In order to proceed with this project, the proposed budget will need to be amended for the resident's special assessment cost of the sidewalk (\$50,000) in the Capital Projects Fund and the installation of the water main (\$50,000) in the Water & Sewer Fund.

Moved by _____, Supported by _____

Motion

Resolved, to increase the 2016/17 Proposed Budget by \$100,000 for the cost of completing the sidewalk gaps on the Clinton River Road, west of Schoenherr to Hayes Road.

Retail Recruitment Analysis

At the April 19th City Council meeting, Councilman Doug Skrzyniarz requested a budget amendment for a firm to provide data and strategic analysis for retail recruitment in the City as recommended by Luke Bonner, the City's Economic Development Consultant.

In order to proceed with the retail recruitment strategy, the proposed budget will need to be amended and increased by \$50,000 to hire a firm to provide such data and strategic analysis.

Moved by _____, Supported by _____

Motion

Resolved, to increase the 2016/17 Proposed Budget by \$50,000 and reduce the contribution to General Fund reserves in order to fund a retail recruitment strategic analysis for the City.
