

JESSE MAY:

Mr. May was nominated by Joyce Sylvester. Mrs. Sylvester said that Mr. May helps her with things she cannot handle, because she is elderly and widowed. He has done everything from clearing brush and poison ivy, to clearing snow, to lending her and her son tools they need to do household jobs. He cleared 18 bags of yard waste and poison ivy from her yard this summer and even covered them with a tarp when rain came.

"My mother wanted to nominate him for all the work he has done in the past and because she knows that he will be out there in the snow this winter taking care of her driveway," wrote Mrs. Sylvester's son on her behalf. "If any neighbor was deserving of this award, Jesse May deserves it."
